Major Events

Women in Construction Week | Industry Appreciation Dinner
Scholarship Bowling Event | Habitat for Humanity Women Build

As a non-profit organization, we rely on the support of our members and sponsors to fund our chapter's initiatives. Through NAWIC's networking events, educational and leadership opportunities, conferences, workshops, seminars, and community involvement, our members have the opportunity to exponentially grow their skillset - both personally *and* professionally. Our Cincinnati chapter offers various educational meetings and great networking opportunities where we gain industry knowledge and share our experiences with other women while building lasting friendships.

We are determined to grow our chapter and promote the construction industry and all women working within it. It is estimated that as of today women represent only 14% of the construction industry workforce and only 3% of the craft field workforce. With an overall industry workforce shortage and an increased desire to promote employment diversity we together can help increase the percentage of women in our trades. NAWIC not only would like your sponsorship but would love the women from your organization to get involved and grow with our chapter.

By participating in our sponsorship program, you are helping local women build a strong foundation to succeed in whatever challenges they face as females in a male populated industry. Without your support, we could not fulfill our mission.
